“ We remember the winter evenings when the sun was low and the barn lights were bright. Alyce and Howard were doing the milking and we were coming in for a holiday from out of town. We had such wonderful meals with them and always enjoyed the feeling of being 'family.' We loved her so!

“ I worked with Alyce at Pine Valley and besides being a great nurse, she was an even better person. We visited about our "cabins" near Drummond and Howard had been our kids bus driver. Her loss is great to those of us who knew her.

“ Alyce was a wonderful friend and mentor. Alyce and I worked together as nurses at Pine Valley Healthcare in the eighties. It was my first job out of college and she was the best teacher and friend that I could have asked for. She loved her work and her family. I remember spending a very special evening in her home. She invited my husband and I, along with another nurse and her husband for supper. We shared a beautiful meal that Alyce and Howard had prepared. After supper, they showed us slides of trips they had taken and told us stories of their life together. I will never forget the kindness that she showed to me. I am a better nurse for having worked and learned from Alyce. She will be missed.
