“ My condolences to Marks family on his passing. I will miss him even though these last few years I have been distant. Mark and I had a lot of fun over the years. Got into a lot of mischief. I remember the first time I met him in history class in Richland Center. He got our teacher to do a sumo wrestler impression. The jokes and singing never ended with Mark. “They quit making that shade of white in 65 “, as he would always say.

*So long my friend.*
