“ Junior, Todd, Jayne----The extremely sad news of Sandy's death is something that I can still hardly believe. It is impossible to put into words how I feel, but you know the many things I would say. Above all, I want you to know that, as one of your oldest friends, I am with you in spirit, and only regret the distance makes it impossible for me to be with you in person. I met you and Sandy in the early 1960's and can say she was one of my best friends. I moved to Texas but have remained so close to her all these years, and will miss our phone conversations dearly. Everyone who knew her will have lost a real friend. My thoughts and prayers are with you Junie and trust they are trying to make your heavy burden lighter, even if only a little. With many of others of your friends, I share your sorrow,
With loving thoughts,
Mary Ellen (Ulrich) Adams

“ To Sandy's family: First, I want to tell you how sad I am to hear of Sandy's passing. I am Charles & Eulala West's daughter, and through the years I have met Sandy and her husband at various family and school functions. Sandy was a good friend to my mom and every time we were all together, Sandy would show me where the two of them went to sneak a cigarette and a beer in their younger years. You wouldn't believe all the hiding places they had. Every time I ran into Sandy, she was always surprised that I remembered her. How could anyone forget someone like Sandy. She was unfiltered and such a joy to be with. I always made sure I looked for her whenever I was with my dad. My mom passed several years ago, and you can bet that she's waiting at those pearly gates with a cigarette and a beer telling Sandy "Come on, I'll show you around". She will be missed.

“ *It's always been a pleasure to chat and spend time with Sandy - sometimes at Muscoda All School Reunion but at other times with family members.*

As a relative it was great to know her and remember years when Roger, Conrad "Junie" and Frank and their parents would join my parents, Frank and Delia Sikhart, for a visit. We enjoyed visiting them at the farm and even talked of "ginseng" and other agricultural crops.

My prayers and thoughts are with you during this difficult time.
